

WINDFARM - NEGRESTI / ROMANIA

12/2014

Blue Planet signed SPA

The project is located in Romania, next to the Cities Negresti and Onesti in the north-east part of the country between Bacau and Iasi. The wind farm will be connected to the local 110kV line. The average windspeed has been measured at about 6,8m/s. The used land is owned by the project company ENERGOWIND RO SRL. The construction has been started and shall be completed by 2016.
