

WINDFARM - VARJA / ESTONIA

07/2014

Blue Planet signed Term Sheet

The project is located at Lügenuse Municipality, mainly on the area of Varja village next to the Northern coast of Estonia (Southern coast of Gulf of Finland). Port of Sillamse is approx. 25 km away. The access to the winds is exceptionally good with the project site due to flat surface and proximity of Gulf of Finland.

TECHNICAL DETAILS

type of power plant	Wind
turbines	General Electric
type of turbine	GE 2,75 / 120
installed capacity	68,75 MW
performance	202.812 MWh
operation	2016

LOCATION

country	Estonia
region	Ida-Viriu
town	Lügenuse
	Varja
