

## WINDFARM - BAUMGARTEN / AUSTRIA

10/2013

### Blue Planet sold Windfarm

The project is located in Austria, next to the City Mattersburg in the eastern part of the country. The wind farm has been connected to the transformer station in Mattersburg. The average windspeed has been measured at about 6,4m/s. The construction has been started 2012. Blue Planet completed the development and sold the Windfarm to an national network operator. The wind farm is in operation since June 2014.

#### TECHNICAL DETAILS

type of power plant	Wind
turbines	Enercon
type of turbine	E-101
installed capacity	15 MW
performance	27.000 MWh
operation	2014

#### LOCATION

country	Austria
region	Burgenland
town	Mattersburg
